

Customising your event bib

You may be walking in The BIG Walk for a specific reason, or with a specific dedication, and we'd like to offer you the opportunity to customise your event bib to reflect this.

You can change your number to any number you like. Perhaps a particular date or year that means something to you. You can add a short message underneath this. This could be a dedication, or perhaps a team name if you are participating with a group of friends or family.

Just change your number and add your text in the editable fields on the event bib before printing. This will be easiest, and create the best result, if you edit this PDF in Adobe Acrobat or Adobe Acrobat Reader ([available for free from https://get.adobe.com/uk/reader/](https://get.adobe.com/uk/reader/))
